Professional Summary

UI/UX Designer | Product Designer | Wordpress Developer

Creative and detail-oriented WordPress Developer and UI/UX Designer with proven expertise in building responsive, user-focused websites and digital products. Skilled in blending aesthetics with functionality to deliver seamless online experiences that drive engagement. Experienced in using tools like Elementor, Divi, Gutenberg, Framer, Canva, Adobe and Figma to create intuitive interfaces, while applying SEO best practices and modern design principles to enhance digital presence. Passionate about problem-solving, collaboration, and delivering value-driven design solutions.

Professional Experience

May, 2025 – present
Grand Prairie, Canada

WordPress Developer – Bellostylez
Remote | 2025

- Spearheaded the development and customization of a WordPress-powered blog platform tailored for a fashion and lifestyle brand.
- Utilized Divi Builder and custom CSS to craft visually appealing,

mobile-responsive layouts that aligned with the brand's aesthetics.

- Implemented SEO best practices, optimized load times, and integrated analytics tools to track user engagement and improve discoverability.
- Collaborated closely with stakeholders to translate creative concepts into a functional digital experience that elevated the brand's online presence.

June, 2025 – present
Port Harcourt, Nigeria

***UI/UX Designer – Bourdillon Omijeh
Foundation.
Port Harcourt | 2025***

Led the end-to-end design and implementation of the foundation's website, ensuring accessibility and user-friendliness for students, sponsors, and donors.

Conducted user research and stakeholder interviews to identify core needs, which informed design decisions and improved user journey flows.

Designed intuitive wireframes and high-fidelity prototypes in Figma, integrating branding guidelines to maintain a consistent digital identity.

The website achieved strong visibility across search engines and became a key digital hub that supported the foundation's outreach and impact.

June 2025 | Remote

***WordPress Developer – YouthUp Global Pathways
Remote / 2025***

- Designed, developed, and deployed a feature-rich WordPress platform to support an international youth empowerment initiative.
- Integrated essential plugins and **custom functionality** to streamline registrations, content publishing, and community interactions.
- Enhanced site performance by applying **technical SEO, caching strategies, and responsive layouts**, resulting in higher user engagement.
- Collaborated with global teams to align technical solutions with organizational goals, contributing to the platform's role in scaling global participation.

July 2025
Port Harcourt, Nigeria

***UI/UX Designer – SuiBiz (Decentralized Web3 Platform)
Hackathon Project / 2025***

Co-created the design and user experience of a decentralized Web3 marketplace, focusing on usability and accessibility for entrepreneurs and professionals.

Crafted interactive dashboards and responsive interfaces in Figma, ensuring seamless navigation within a complex blockchain-powered system.

Played a pivotal role in a team that secured 2nd place at a competitive hackathon, demonstrating innovation and strong design execution.

Post-hackathon, contributed to refining the product design for potential startup scalability, showcasing adaptability and entrepreneurial vision.

2025

Port-harcourt, Nigeria

UI/UX Designer – Ads Firr
Remote | 2025

- Designed the interface and user experience of a digital advertising platform dashboard, focusing on clarity, usability, and workflow efficiency.
- Conducted competitive analysis and applied modern design systems to create an interface that

simplified campaign management.

- Collaborated with the development team to ensure smooth handoff from design to implementation, reducing friction and miscommunication.
- Enhanced the platform's overall visual appeal and navigation, which significantly improved the intuitiveness of the product for end users.

2025
Port Harcourt, Nigeria

UI/UX Designer – HairBrosh UI Kit
Remote | 2025

Designed and developed a scalable UI Kit tailored for a modern haircare and grooming platform, aimed at streamlining digital product creation for barbershop and salon businesses.

Built a comprehensive design system in Figma, including typography, color palettes, reusable components, and interaction guidelines to ensure consistency and efficiency across projects.

Focused on usability and accessibility, ensuring that components were optimized for both desktop and mobile experiences.

Delivered a flexible, ready-to-use kit that empowered developers and designers to accelerate product development while

maintaining brand identity and design integrity.

2025
Remote.

***UI/UX Design Intern – Digital Nexus AI
Remote / 2025***

Collaborated with the design team to create user-friendly interfaces for AI-driven digital products, ensuring functionality and aesthetics worked seamlessly together.

Contributed to wireframing, prototyping, and user flow designs in Figma, translating complex AI features into intuitive experiences.

Participated in design reviews and usability testing, providing insights that improved product accessibility and user satisfaction.

Strengthened expertise in design systems, responsive layouts, and cross-platform UI/UX principles, with a focus on aligning with cutting-edge AI solutions.

2025
Remote, Nigeria

***UI/UX Design Intern – Hyperbird Digital Technologies
Remote / 2025***

Assisted in the design and delivery of responsive web and mobile interfaces for

client projects across different industries.

Contributed to wireframes, visual mockups, and high-fidelity prototypes that simplified user interactions and enhanced usability.

Learned to apply modern design systems and brand guidelines, ensuring consistency and professionalism across all projects.

Gained hands-on experience in collaborative agency workflows, working alongside senior designers to refine digital products from concept to launch.
